(Coaches/Club Directors/Club Admins/Chaperones/Board Members/Event Staff/Volunteers/Officials)

---

Notice: On January 1, 2020, the US Olympic & Paralympic Committee (USOPC) adopted a new background screening program and criteria for all National Governing Bodies (NGBs) involved in the Olympic Movement.

This program requires all NGBs to adopt the same background screening criteria and pricing structure. The Florida Region previously offset the additional cost of \$15 per member for the program since it was launched after our 2019/2020 season began. This year, with the launch of the new USAV membership management system on September 1, 2020, the background screening program & new pricing will be fully integrated into the membership registration process for domestic background screens. (Note: International background screens will incur higher fees and will continue to be the responsibility of the member.)
