

Florida Region of USA Volleyball

From the Desk of the Commissioner

Dear Florida Region Members,

The Board of Directors of the Florida Region of USA Volleyball has met previously and will be meeting again on Monday, May 11th to discuss the newest declarations for this health crisis as we navigate the many challenges for our players, coaches, parents, clubs, officials and event directors. We know the challenges have been difficult and stressful for everyone since the social distancing orders and the closing of sports activities and events in March.

The Florida Region staff has been working diligently to provide our members with the most up to date information on national, state and local declarations concerning the crisis and the recent updates on how and when we can "return to play". They have also been in communication with club directors and tournament directors to share concerns and ideas, and to assist them in any way possible. Much of this information is shared on our web site and emails as it comes in from these discussion and other various sources.

The mission of the Florida Region is to serve you and to provide the best opportunities to participate in our great sport. To this end we will always put member safety first as we also maintain hope to once again experience the joy, camaraderie, and satisfaction of participating in the wonderful sport of volleyball.

The Board and Staff of the Florida Region will continue to gather information from the US Olympic & Paralympic Committee, USA Volleyball, the RVAA and federal, state and local governments to assist us in our decisions concerning the activities and events for the Florida Region of USA Volleyball. We will also continue to share information with you as it becomes available.

As coaches, athletes, parents, officials, event directors and sports fans, we know we can conquer the challenges of this health crisis if we stay strong and work together. Team sports have always taught the values of working together to reach a common goal and taking care of our teammates. We are going to be back...by working together and protecting each other!

Be safe and well,

Mary Andrew, Commissioner/Board Chair
Florida Region of USA Volleyball, Inc.
