WELCOME NOTE FROM THE COMMISSIONER

Region Members,

I hope all is well with you and your family this holiday season. With the outdoor season behind us and the indoor season just beginning, we are looking forward to a wonderful season of volleyball for 2012! Please remember that you must be registered before you participate in any USA Volleyball activity where you are playing. If you have questions about registration, please do not hesitate to contact our office staff and they will gladly assist you with your membership. I hope that your tryouts go well and that you are chosen for the team of your choice.

To you and yours have a happy holiday and enjoy this joyous time of year with your family and loved ones. Please count your blessings and may all of your volleyball dreams come true!

Sincerely,

James Phillips
 Commissioner
 Florida Region of USA Volleyball

LETTER FROM THE EXECUTIVE DIRECTOR

It's that time of the year again! Our indoor junior club season has started and we have already registered 7,464 members as of this writing. With our all-time high of 11,000 members last season, we have set an internal goal of reaching 12,000 members for the 2011/2012 season and we hope that you will help us achieve our new goal. As the 8th largest region in the US, we want to move up to one of the top 5 spots as quickly as possible. Thank you for everything you do in your respective area of Florida!

There are several hot topics this month that deserve a mention:

- 🏐 **2012 Volleyball Calendar** – Our 2012 volleyball calendar is available on the Florida Region website (www.FloridaVolleyball.org) for \$12. It is the only calendar in the US devoted solely to volleyball and all proceeds benefit the Florida Region scholarship fund. These make a great stocking stuffer! Order yours (and one for a friend) today!
- 🏐 **USA Volleyball Education Weekend** – Our annual education weekend is scheduled for Dec 9-11 in Orlando. We will offer IMPACT, BIMPACT, CAP I, CAP II, BCAP, and an IMPACT Instructor class for coaches. Additionally, we will offer a Regional and National training clinic for officials.
- 🏐 **Team Florida WAVE** – Our Team Florida WAVE women's pro volleyball team is in formation. Nick Cheronis (Univ. of Florida/PowerCore 360) will be our head coach and we have tryouts scheduled for Dec 9th & 10th in Orlando. This is a great opportunity for any post-collegiate female athlete that would like to continue their playing career and represent the Florida Region, both nationally and internationally! Click on the Team Florida WAVE on the Florida Region website for more information. (Note: We still have corporate, club, and individual partnership opportunities available. Contact Krissy McKane, Marketing Coordinator in the Region Office.)
- 🏐 **NCAA DII Volleyball Tournament** – Both Flagler College and the University of Tampa made it to the quarter finals of the NCAA DII Championship Tournament. Tampa won their match against Bridgeport and advanced to the semi-finals where they lost in 4 sets to Concordia-St. Paul. Congratulations to Coach Catanach at Tampa for finishing in 3rd place and to Coach Mott at Flagler for a 5th place finish.
- 🏐 **NCAA DI Volleyball Tournament** – We want to recognize the following DI colleges that made it to the NCAA DI Championship Tournament: Univ. of Florida, Univ. of Miami, and Florida State Univ. We wish them all the very best as they represent the State of Florida!

Happy Volleydays!

CLUB HIGHLIGHT – MARION COUNTY JUNIORS

Each month a member club is featured in *Vol-eNews*. This is a great way to get to know the Club Director(s) and learn more about the clubs throughout Florida. This month **Debbie Ingram** and **Marion County Juniors** will be highlighted.

Q: When did you get involved with volleyball?

A: Prior to working for Marion County Juniors, I spent 25 years in the fitness business as a program director for Humana Hospital, then the Central Florida YMCA, and, later, ran my own personal training business. When my daughter, Haley, began playing just two years ago, I assisted her coach and some of the other teams with physical conditioning. In 2010, I was hired by MCJ to be the first Executive Director of the club and oversee all club activities. There are a lot of similarities between running a volleyball club and running a fitness club. Both are member-based organizations, where communication and organization are key. We consider every player and their family to be a member of our club and try very hard to serve the entire membership to the best of our ability.

Q: What are all the job titles you currently hold? How do you manage all of those responsibilities?

A: My title is Executive Director, so in theory, I oversee every aspect of the club. However, it is absolutely a group effort at MCJ. We have a board of directors, coaching staff, and parents group who are always on hand to help. Our core staff includes Skills Development Director and Boys Volleyball Director Jesus Montalvo, Tournament Director Steve Hubner, Girls Volleyball Director Jimmy Collins, Volunteer Director Carol Cameron, Administrative Assistant Suzanne Ritterhoff, and front desk clerk, Missy Brown. I could not do my job without every one of them. During club season, our corps of Team Moms is the glue that holds us all together. I communicate with them and our coaches constantly so that they can keep our families informed.

Q: What is the size of your club currently? When was it started?

A: Marion County Juniors began in 2007 and played its first club season in 2008 with eight teams and a handful of volunteer coaches. This club season we have 17 girl's teams, two boy's teams, and a coaching staff numbering over twenty. We offer year-round programming with summer skills clinics, camps, and a fall mini-club program.

Q: Tell us about your boys' program. What can the Florida Region do to better promote boys volleyball in Florida?

A: Make it affordable. Traditional boys programs, like youth football and baseball leagues, are cheap compared to club volleyball. Lower membership rates and tournament entry fees help keep boys program tuition in check. A lot of boys come to the club because their sisters play, so families need it to be reasonable in order for all their children to participate. We are especially challenged in Marion County where we don't have boy's volleyball in our high schools yet. Like other clubs, we run a short winter season but when boys in other parts of the state are playing high school volleyball in the spring, we lose our boys to other sports. We need to bring boys high school volleyball to more counties so we can compete with the boys who get to play year-round.

Q: What are some of your club's accomplishments?

A: While we have seen over a dozen athletes continue on to play at a college level, and have had several teams rank or finish tournaments in the top ten of their division, our bigger accomplishment is the reputation we have garnered within our community and the state of

Florida for being a well-run, quality program. Marion County Juniors Volleyball Club helped to create a volleyball environment in Marion County. We believe in our mission, and while we will always strive towards having more teams winning tournaments, and more players getting college scholarships, we believe that by continuing to serve players of all levels our club will thrive at all levels.

Q: Tell us about the MCJ Facility.

A: In 2009 the club acquired its first facility, but moved into our current facility the following year. We have four practice courts, but during tournaments, we turn one court in to seating, so parents have ample space to watch every court. We have a concessions stand, pro shop, fitness room, meeting room, restrooms, and two offices. While we don't have central air conditioning, we employ large portable air conditioning units and fans to help keep cool in the summer. We are located in the heart of Ocala, so we are convenient for most of our families, as well as visiting teams. We love our gym, but we may outgrow it soon.

Q: What kind of programs does MCJ offer for younger athletes?

A: During club season, we offer a developmental team for girls 10 and under. This team has a shorter season, playing only one-day tournaments, and at a very reasonable price. We also assign skill development coaches to all of our club teams. These coaches assist our head coaches weekly with skill development. Throughout the summer, we offer one-day first-timers clinics, and weekly beginner's skills clinics for younger players. We offered three summer camps this year, two of which were geared towards younger players. Our fall mini-club program is a great starting point for many younger athletes. We are continually looking at ways to improve all of our programming to better serve and develop the 14 and under population.

Q: What are your future plans with your club team?

A: Marion County Juniors is committed to our mission of making volleyball accessible and affordable to as many players as possible. We want to challenge our elite teams by providing them with high level coaching, sending them to the best tournaments, and seeing them off to play at the college level, but at the same time, we want to offer a quality volleyball program to the non-elite athletes as well. We are investing in our coaching staff by offering them opportunities for education and training so that our players get the best we can offer. We would like to begin offering USAV tournaments and reach out to the areas surrounding us that have yet to develop competitive volleyball.

Q: If you could brag about your club, what would you say?

A: MCJ is a great group of people all working together for a common goal. We don't always make everyone happy, or make all the right decisions, but we try to do everything with the primary objective being what is best for the club, and what is best for the athletes. We have a very active board of directors, who meet regularly and follow through on their commitments to the club. We have a very supportive atmosphere for our coaching staff, and strive to give them support and resources to make their jobs easier. We also have outreach programs in the community that help serve athletes outside our club. We work with several private schools, and offer a tournament for their teams every year. MCJ hosts a high school JV tournament, and we support the programs at the Marion County YMCA and the Boys and Girls Club of Marion County.

Q: What do you look forward to in the future for the Florida Region?

A: With the explosive growth of this sport, the Florida Region has an opportunity to support start-up clubs in new areas of the state where resources are not as plentiful as the big cities.

Additionally, I would like to see the Florida Region assist clubs in the promotion of boys programs and help get boys volleyball into more public and private school systems. Training and educational opportunities for coaches, club directors, and volunteers would be valuable as well. And how about hosting a JNQ?

Thanks Debbie for participating in the Club Highlight. The Florida Region wishes you and your club success in the 2011/2012 season! Stay tuned for next month's Club Highlight to learn about Ore Pablos and Wildfire Volleyball Club.

COACHES & STAFF INFORMATION

TEAM FLORIDA WAVE HEAD COACH

Nick Cheronis has coached collegiate volleyball for 28 years. He served as the Associate Head Coach at the University of Florida for 18 of those years. During his collegiate coaching career, Nick had 7 NCAA Final Four appearances and won 18 SEC championships. He coached 25 AVCA All-Americans, coached the USAV Jr. National team, and served as a coach and Technical Director for the Team Florida Indoor HP All-Star Program. Nick is now a Master Coach with PowerCore360.

*We had the pleasure of asking **Nick Cheronis** a few questions about his career and thoughts on joining the Team Florida Wave Program:*

Q: How did you get started coaching volleyball?

A: I began as a volunteer assistant coach at Valparaiso University and spent 28 years coaching collegiate women's volleyball. Most recently I was the Associate Head Coach at the University of Florida for 18 seasons. While I was there, we won the Southeastern Conference Championship 18 years in a row while going to 7 final fours.

Q: How will coaching the first female Regional semi-pro team differ from coaching female college athletes? How is it similar?

A: I don't really know the answer to this as it will be new to all of us. However, athletes will have to get used to this being more of a business where execution will be more important than potential. In college, players have a chance to develop and grow into a role. In this environment, that won't necessarily be true. Hopefully there will be a passion for competition and playing the game that will transfer over to playing at this level.

Q: What kind of opportunities will Team Florida Wave give to post collegiate female athletes?

Vol-eNews FloridaVolleyball.org

The official source for Florida volleyball news!

A: An opportunity to continue playing without having to go overseas. It will take a special player to understand the long term goal of the league and not get caught up in "what's in it for me today". In the beginning, there won't be much in it for the players except to fill the need for the passion to play.

Q: Five years from now, what do you hope to see, as far as the growth of professional volleyball, in the United States?

A: That's a one word answer.... television. Sustained growth over a long period of time will depend on media coverage. Initially that will come through internet streaming, newspapers and maybe radio, but in the long run we will need to attract advertisers who will benefit from the exposure of our game.

TEAM FLORIDA WAVE ASSISTANT COACH

Steve Benson has coached collegiate volleyball for 11 years. He served as the Head Coach for both the men's and women's teams at EMU in Virginia from 2005-2011. Steve is the longest serving Team Florida Indoor HP All-Star coach and has assisted USA Volleyball by leading HP tryouts and camps throughout the US. During his tenure with the Team Florida HP All-Stars, Steve led both girl's and boy's teams to a 1st, 3rd, and 4th place finish at the USAV HP Championships. Steve is now the Events Manager for the Florida Region of USA Volleyball.

For **FAQ** and to sign up for tryouts, please visit www.FloridaVolleyball.org. The deadline to sign up is **Thursday, December 8th at noon**. Space is limited...only 24 spots per tryout. If you have any questions, please contact Krissy@FloridaVolleyball.org.
